Work product – Architecture Decision (AD) index

Decision ID	Domain	Decision Name	Scope	Status	Decision / Alternative
AD-001	Applications	Selection of ProjectA application for Insurance business system	Program	Complete	ProjectA / VendorA
AD-002	Middleware	Selection of Application Integration strategy.	Program	Complete	Web Services and CAD integration solution.
AD-003	Applications	Selection of Document Composition vendor solution	Program	Complete	Document Sciences - Document Design Tool
AD-004	Hardware	Selection of Unix as host operating system	Program	Complete	Unix on UnixBoxModel.
AD-005	Data / Info.	Selection of Vendor platform for ProjectA Operational Data Store	Program	Complete	RDBMS
AD-006	Data / Info.	Selection of Management Reporting vendor solution for enterprise	Program	Complete	Information Builders / Web Focus
AD-007	Data / Info.	Selection of Document Imaging Repository for P&C system	Program	Complete	Adapt & integrate Document Management Tool with Document Design Tool and ProjectA
AD-008	Hardware	Hardware selection for application hosting	Program	Complete	UnixBoxModel hardware running Unix o/s
AD-009	Applications	Selection of User Client deployment model	Program	Complete	Citrix Metaframe for access to user desktop tools.
AD-010	Hardware	Partitioning of logical work environments	Program	Complete	3 logical partitions of "environments", with sub-partitions in each
AD-011	Security	Selection of User Identity Management strategy / solution for ProjectA program	Program	TBD	Pending
AD-012	Security	Selection of Application authorization strategy for ProjectA program.	Program	TBD	Pending
AD-013	Integration	Approach for Data population of ProjectA database	ProjectA	Complete	Use business objects for populating ProjectA database.

Use of the Index

- Create an index that refers to the long decision documents.

- For abbreviated use, or W.I.P. (work in progress), use the short template, or use a short one page version in Power Point.

- Use symbols or color coding to mark status of the decisions (planned, WIP, tactical, strategic, final, etc.) as per your organization
